SUMMARY

Data Analyst with an MBA in Business Analytics and Marketing (9.35 CGPA) and hands-on experience in Power BI reporting and business intelligence. Skilled in SQL, Power BI, DAX, Power Query, Advanced Excel and Python, with experience building dashboards and transforming operational data into actionable business insights.

TECHNICAL SKILLS

SQL and Databases: SQL, PostgreSQL, Joins, Subqueries, CTEs, Window Functions, Aggregations
Power BI: DAX, Power Query, Data Modeling, Star Schema, Drillthrough, KPI Dashboards
Python: Pandas, NumPy, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA)
Excel and Reporting: Advanced Excel, Pivot Tables, Power Pivot, XLOOKUP, INDEX-MATCH, Dynamic Dashboards, Google Sheets
Data Management: ETL, Data Integration, Data Cleaning, Data Validation, Data Quality
Business Analytics: KPI Analysis, Funnel Analysis, Conversion Analysis, Turnaround-Time Analysis, Root-Cause Analysis

PROFESSIONAL EXPERIENCE

Data Analyst I SVLL **Jul 2026 – Oct 2026**

- Developed Power BI dashboards to streamline daily reporting by consolidating data from 7 ERP modules across 62 depots, reducing repetitive manual reporting and providing centralized visibility into operational performance.
- Used SQL and Power Query to transform and validate operational data across 32 fields, developing DAX measures and interactive KPI dashboards to track LR/POD status, lead time, delays and on-time performance, improving operational visibility and helping teams monitor freight performance and delivery delays.
- Developed Power BI reports and dashboards for freight budget vs. actual analysis, vehicle placement tracking (112K+ records), daily dispatch planning, claims analysis (1.2M+ records) and HR recruitment analytics, enabling centralized reporting and supporting operational planning, cost monitoring and management decision-making.

Data Analytics and Reporting Intern I VNR Seeds **Jun 2025 - Aug 2025**

- Cleaned and validated 10,000+ farmer records in Python (Pandas), Excel and Google Sheets by standardizing formats, removing duplicates and resolving missing values, improving reporting accuracy by an estimated 20%.
- Analyzed 50,000+ customer interactions across digital channels in Excel and Power BI, building segmentation logic that identified 3 high-engagement segments later used to shape targeting strategy.

PROJECTS

Recruitment and HR Analytics Dashboard I *SQL, Power BI, DAX, Power Query, Excel* **Jul 2026 - Aug 2026**

- Built a 6-page Power BI recruitment dashboard covering 408 requisitions, hiring funnel, candidate/offer tracking, position status and recruiter performance using SQL, DAX and Power Query.
- Analyzed stage-wise hiring turnaround, finding a 21-day average requisition-to-offer cycle versus 4 days from offer to acceptance, with interactive filters and requisition-level drillthrough for follow-up.

Patient Appointment No-Show Analysis I Python**,** *Power BI, DAX, Power Query, Excel* **Apr 2026 - May 2026**

- Processed 111K+ healthcare appointment records in Python (Pandas) with feature engineering and data-quality checks to support patient segmentation.
- Built a Power BI dashboard tracking no-show rate, demographics and waiting-time bands, and found patients waiting more than 7 days were about twice as likely to miss their appointment, supporting a scheduling change.

EDUCATION

MBA in Business Analytics & Marketing, ICFAI University I CGPA: 9.35/10 **2024 - 2026**
PG Diploma in Computer Applications (PGDCA), Kalinga University **2023 - 2024**
Bachelor of Commerce (B.Com), MAIC **I 77%** **2020 - 2023**

CERTIFICATIONS

- Microsoft Power BI Data Analyst Professional Certificate – Coursera
